To Whom It May Concern:

We have had the pleasure of recently working with Maloney Contractors Ltd. on the new Dr. Knox replacement middle school in Kelowna. B.C. We have worked with Maloney on several other projects in the past such as Valemount Secondary School, Kelowna Secondary School and the Penticton health Centre dating back to 1994.

The firm always approached the project in a positive and friendly manner and employed skilled and cooperative site superintendents. Their paperwork is thorough with quick responses to any questions or problems which may arise. The company makes every effort to complete their projects to the Owner's satisfaction.

Meiklejohn Architects Inc. would not hesitate to recommend Maloney Contractors Ltd. for future construction projects.

Sincerely,

.....
