TO WHOM IT MAY CONCERN:

This is to confirm that we have worked successfully with **Maloney Contractors Ltd.** as the general contractor on two of our recent public school projects designed by our office for the B.C. interior region.

Both the Sk'elep School of Excellence for the Kamloops Indian Band and the Community School for the Skeetchestn Indian Band designed by our office were constructed with excellence by Maloney Construction.

The two public school projects involved both unique new exposed structures, unusual architectural form language and finishes which Maloney Construction completed without difficulties on time and budget.

We would not hesitate to recommend Maloney Construction as a general contractor for similar projects.

We look forward to working with Maloney Construction in the future.

Yours truly,

IB G. HANSEN ARCHITECT LTD.
