**RE: MALONEY CONSTRUCTION LTD.  
(FORMERLY TARAD INDUSTRIES)**

In the past years we have had the pleasure of working with the Maloney Construction Ltd. on the \$7 million construction of the new S. Bruce Smith Junior High School in Edmonton, Alberta as well as a later addition of eight portable classroom units to the school.

Maloney strives to complete projects on schedule, on budget and with the highest degree of excellence. We can attest to their success in all these areas on the S. Bruce Smith School projects .

Problems that arose were resolved quickly and effectively. The entire construction team, from superintendent, job coordinator and upper management, demonstrated exceptional qualities in communication with owners, consultants and subtrades. This factor greatly attributed to the success of the projects.

We recommend Maloney Construction Ltd. without hesitation within the industry.

Yours very truly,
